WELCOME TO OUR MAY NEWSLETTER

Hear ye Hear ye: On May 22nd Griffith Electric will be holding our first 75th open house celebration at our Bridgewater location at 4W Chimney Rock Rd. in Bridgewater NJ. The open house will be from 10:00 to 3:30. Attending will be a number of our key manufactures displaying tons of new products and loads of give-a-ways. We will also be serving great food from 12:00 to 3:00 this is a MUST attend should you be in the area, so please mark you calendars for this event.

The watch word for this month's newsletter is "BE PREPARED". Who knows when the next storm will threaten the peace and quiet of our home or business? Griffith Electric is prepared with all of the products you need when the power goes out, from portable generators for temporary power to whole house generators to completely run your entire home. We also stock all of the accessories you will need to install these products. Please contact any of our Griffith Team members to get a complete list of all the products we are now stocking.

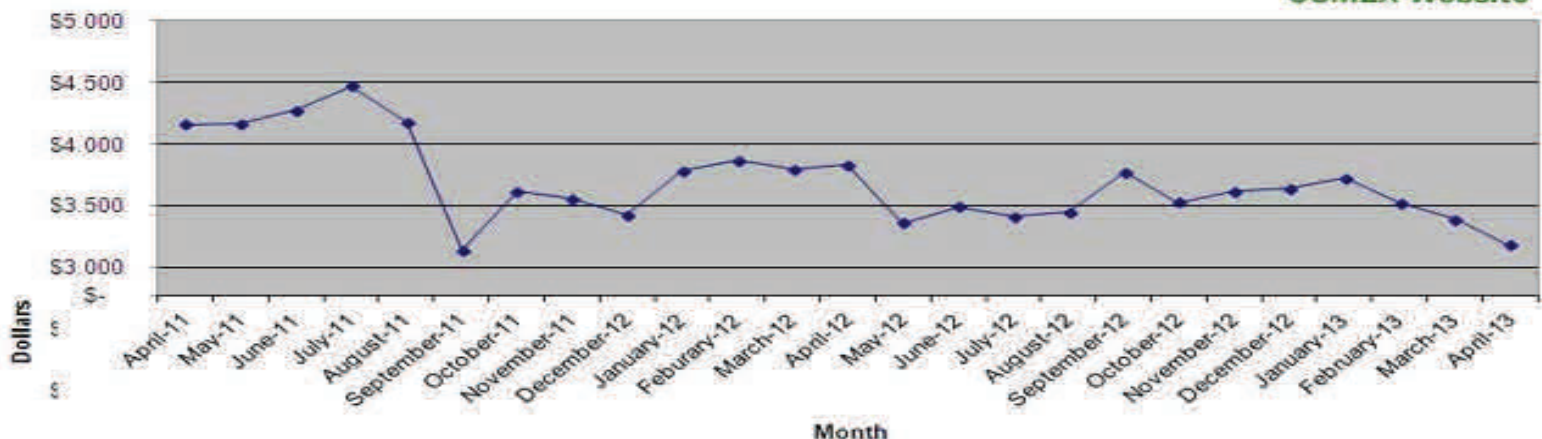

Thanks for your business,

Ron

PBN Series

Non-metallic Power Inlet Boxes for use with Portable Generators.

Patents Pending

The new PBN Series features an exclusive POP-FAST, 3/4" knockout design that makes for exceptionally fast installation. The interior provides over 100 cubic inches of wiring space. The slide-out base permits easy 360° access to the terminals of the flanged inlet for fast wiring. The through-bolt design is held in place with two 4-1/8" JS500 screws. A water-resistant and bug-proof flanged inlet cover is standard.

Select the Generator That's Right for Your Needs!

Whether you are home or away, Eaton standby generators quietly protect your home and family with an immediate, automatic, reliable response to utility power failure.

You can now select from a full lineup of different units to meet your needs. From powering up some emergency circuits at a small bungalow to running all of the power including security systems, air conditioners and computers in a small office building, Eaton has the solution to meet your needs.
